Registration

1. Make eye contraction. To do this, take a needle with a white thread, mark with needles points for tightening.

We pull off according to the scheme:

Insert the needle at point 1 (leave the small end of the thread outside) - output at point 2 - enter at point 3 - output at point 4 - enter at point 5 - output at point 2, simultaneously pulling together - we enter at point 3 - we display at point 4 - we enter at point 5 - output at point 6.

We tighten it slightly, tie the ends of the threads together and hide in the head.

2. Embroider eyebrows, cilia, mouth.
3. Sew on the horn and ears.
4. Sew the head to the body.
5. Sew on the mane: cut off 30-35 cm of textured yarn and sew on 3-4 strands after 2 sc. For mane you can use Alize Baby Softy, Vita Plush fancy or Vita yarn Pigtail fancy
